Fire Marshal Releases New Safety Standards

Frankfort, April 12—New regulations designed to prevent the loss of life and property by fire were released this week by the state Division of Fire Prevention and Rates in a new code of safety standards. The standards supersede the previous ones, published in 1948.

The latest manual of standards includes new regulations governing the building of all types of structures, new specifications for hospitals and sanitariums, a new code for preventing fires in the dry-cleaning industry, additional safety standards for ventilating and air-conditioning systems, and stricter rules for fireworks displays.

The standards now require that gas heaters in transient sleeping quarters be equipped with automatic pilots and effective air vents. The requirement was made as the result of several accidents that caused deaths in tourist cabins.

Also included as the result of past accidents are new regulations for the handling and transportation of gasoline and kerosene.

A new section on the installation of television receivers and antennas has been added to the standards.

W. L. Martin, state fire marshal, said that the manual contains the best thinking in fire prevention based on the opinions of the highest authorities on the subject and on sound engineering practices.

From Brazil's Rugged Interior Hannas Fly "On To The Big City"

FROM THE REV. AND MRS. C. MORTON HANNA
(Traveling in Mexico and South America)

The plane for Sao Paulo leaves the interior city of Dourados only three days a week, and we had tickets on the Tuesday flight. All day Monday it rained, with a foggy dawn on Tuesday. Dr. Sydenstricker, our host, got out his pick-up truck, put on chains, donned his high boots, provided us all with overshoes—and we were off to the airport well ahead of time. The dirt roads were wide and already there were ruts in every available place. Our driver skillfully picked the ruts which were most likely to avoid the worst mud holes; so after much lunging and lurching we arrived at the airport. We parked near the grass-covered runway, beside the thatched-covered pole hut which is a present serving as the airport building. Nearly an hour later, a two-motored plane landed on the grass runway, splashing dark red mud on its windows and everything else near at hand.

After a very comfortable four-hour ride (with one stop in the state of Parana) we landed in Sao Paulo. What a contrast! We came in on a concrete runway, capable of handling the largest planes, and went to an air terminal building, which will be the equal of any in North America when completed. So it seemed that it was but a step from the mud of the frontier state of Mata Grasso to the modern metropolitan center which is Sao Paulo, with over 2,200,000 people, tall buildings, beautiful parks, handsome private homes and great urban institutions.

Great excitement! We were at the same hotel as the Latin American movie star, Mario Mareno. Crowds of men, women, and children stood for hours in the square in front of the hotel, hoping to catch a glimpse of him as he passed in and out. There was a great dinner to honor him in the ballroom of the hotel—but we were not invited!

However the missionaries were on hand to show us the missionary institutions. McKensie College (really a university) is recognized as the best engineering school in Brazil. J. M. C. is a pre-theological school. These schools, together with the Presbyterian Seminary, are all busy preparing a leadership for the great future which Brazil is sure to have. These trips to various suburbs of the city were all made over wonderful roads in very comfortable busses.

On Saturday we came to Lavras, 350 miles by plane, where the missionaries and church people have given us a royal reception. The Charlotte Kemper School and Gammon Institute together enroll about 1,000 students, and they are doing a wonderful work.

Tomorrow we will head back into rural areas in the state of Minas by train.

Board Says High Schools Should Have 100 In Attendance

The State Board of Education is considering a revision of the accrediting regulations as concerns the required average daily attendance at accredited high schools in the state. At this time one of the requirements for the accreditation of a high school is that the school maintain at least a minimum of 60 pupils in enrollment.

According to Boswell Hodgkin, superintendent of public instruction, the reason for the Board's consideration of requiring a higher enrollment and attendance is to provide better advantages and facilities in the smaller high schools of Kentucky.

It is proposed that an average daily attendance of 100 pupils be required to give the school accreditation. In a resolution recently passed by the State Board the higher standard was set looking toward its realization by the beginning of the 1954-55 school term.

Council Hears Plans To Promote

Street, House Marking Project Is Launched

Members of the Jeffersontown Community Council attending the regular April meeting Monday night heard an inspiring address by Robert E. Layman, vice-president of the Central Bank, Lexington. Essentials of success of community enterprises were discussed by the speaker and methods suggested for handling civic problems such as confront the local Council.

Layman, who is also a director of the Bank of Jeffersontown, has had wide experience in the field of public relations and as an organizer. He told the group that the progress and prosperity of a community depends on its resources—natural and human—and on competent leadership. Competent community leaders appreciate the fact that there is a job to be done in many local areas. And since the nation is a group of communities, a good community contributes to a good nation.

Marshaling the community resources was pointed to by the speaker as a must for successful leadership. The organizational strength depends on the "little wheels" as well as the "big wheels."

Plan House Numbering

The Council's publicity and promotion committee, headed by W. T. Settles, assumed responsibility for the project to provide for street-marking signs for the town, in co-operation with the Town Council. Several private contributions have already been received to defray the cost of the project, which it is hoped, may be held within a budget of $400. This is possible, it was thought, since Charles Donelson, Boy Scout leader, has pledged the support of the Scouts in selling the house numbers, which would be included in the budget.

The Boy Scouts are expected to start the campaign next week by calling at every local resident to solicit a nominal fee, to be charged for the house numbers. The numbering process will be handled by the Town Council, who will assign numbers for each house.

Tank Operators From Here Push Chinese Reds "Over The Hill"

With the First Cavalry Division in Korea (Delayed)—Two tank platoon sergeants put their vehicles to a new test during the fight for Hongchon and proved to the Chinese that their 40-ton Shermans can do more than just furnish fire support to infantry troops.

M/Sgt. Glenn Mooer, Jeffersontown, Ky., and Sgt. 1/Cl. Ezequiel Podille, Louisville, Ky., jockeyed their tanks up the slopes of Hill 302 recently with elements of the Seventh Cavalry Regiment when an attack was launched on the mountain just south of Hongchon.

After infantrymen had been halted by the entrenched Red force along the Hill's ridgeline, Sgt. Mooer and Sgt. Podille moved their tanks from positions along the mountain base and began moving forward of the cavalrymen.

At first, the Red troops continued to pour small-arms fire on the cavalry force but halted when they saw the rumbling tanks moving up the rocky slopes toward their positions.

"They attempted to stop us with mortar fire," Sgt. Podille said, "but probably didn't have enough ammunition because they stopped after several rounds."

The tanks churned to the top of one ridge and began pouring 76-millimeter fire on the Red fortifications along with 30- and 50-caliber machine-gun rounds.

The Red force turned all their fire on the tanks, giving the attacking infantrymen time to move forward again and gain new positions nearer the hill's crest.

The 200-man enemy force on the hill was unable to stop the tanks or infantrymen by this time and began retreating.

Both tanks continued to splatter Red groups with the 76-mm. explosives while machine gunners from the infantry force worked on the escape route with their heavy weapons.

Throughout the day the cavalrymen fought for the hill until the ragged remnants of Chinese infantrymen along the top turned and withdrew to mountains farther north.

Both Sgts. Mooer and Podille were amazed at how their tanks performed during the rigorous test and are now confident that they will go anyplace.

Sg. Mooer formerly lived at Route No. 1, Jeffersontown, while Sgt. Podille, husband of the former Miss Olive Wolfe, resides at 1449 Beach Street, Louisville. Both men are members of the 70th Tank Battalion's Company C.

ESTABLISHED JUNE 1907 — AN INDEPENDENT COUNTY NEWSPAPER

Vol. 44 No. 48

JEFFERSONTOWN, KY., FRIDAY, APRIL 13, 1951

40 YEARS AGO

Remember: when "Father was head of the household.

Bardstown, 40 years ago this week, was "all het up" over possibility of "getting the proposed national Lincoln Highway through Kentucky to Washington to adopt Bardstown Road as a part. The Bardstown Commercial Club had a meeting "enthusiastically" recommending effort to route the highway its way from Hodgenville to Louisville. The plan of the memorial highway, to be built, of course, by the government, was a tourist historical highway to start at Springfield, Ill., then pass through "Lincoln country" in Indiana, Kentucky, and on to the National Capital. Already a portion, north of the Ohio River, had been started to go through Pittsburgh. Naturally all cities and towns on the "possible" route were interested.

A committee was named, composed of R. H. Edelin, R. H. Cook, R. C. Cherry, N. R. Hayden, J. W. Shaunty, with B. P. Grigsby president of the club to meet with the Louisville Commercial Club, which, in turn was to have representatives from Jefferson and other counties through which the road would pass to "get the enterprise going." Spencer, Bullitt, and Larue Counties would be "interested" as well as Nelson. "Lincoln Way" should be the "Bardstown Way" it was asserted.

Mr. and Mrs. Frank Jean (the latter the well-known and genial manager of the Malott store) entertained in honor of Mr. and Mrs. W. T. Cox and Miss Mattye Van De Vert, of New York City. Mrs. J. W. Jean, who had just celebrated her 83rd birthday was a center honor guest also of the evening, Sunday.

"Better Schools" was the subject to be discussed Monday night at an ice cream social in Middletown. A new baseball league had been formed to include Jeffersontown, Shelbyville, LaGrange, Simpsonville, and Lakeland and the first game was to be played Saturday afternoon of this week.

The question of an electric light plant for Jeffersontown was to be "put before the citizens on April 19 and 20." The Town Trustees already agreed to a 10-year tax exemption. "Get ready" The Jeffersonian proclaimed, "It is time to act." The paper had contacted the men who had proposed to provide the plant. They said there was "plenty of money" behind their offer and that the people of Jeffersontown would not be called upon to put up a red cent. The Louisville company would construct the plant if the citizens would meet them half way by "putting electric lights in their homes." The days of the tallow candle and the coal-oil lamp had "passed" it was pointed out.

The new home of Joseph Windhurst in Richland Addition, Buechel, was "nearing completion."

The Jeffersontown Public School would "close Monday, April 17, with an entertainment at Bruce Hall."

Buggies could be bought for from $40 "up" at the Wheeler Carriage Co., Louisville; surries at $75 up. This firm, it said, was handling the famous Columbus Buggy Co.'s vehicles. (The auto had not yet crowded the horse-drawn vehicles from the highways.)

"Come to Louisville Refund Week" the Stewart Dry Goods Co. was suggesting in its ad. There would be a "beautiful display of feminine fashions," it declared. Then, railroad fares would be refunded with a certain amount of purchases.

Potato growers in the neighborhood of Gillman's Point and St. Matthews had formed an organization and were going to see if better prices could not be obtained with better handling and marketing. This year was to be "a test."

Jeffersontown was to have an annual "Clean-up Day" and a mass meeting was to be held to set the date.

Proponents were declaring that "A Clean City Is Always Inviting." (They might have added, "and also rare.")

"The Royal Standard Typewriter" was being liberally advertised with the price at $65. It was used by the government, the ads said. They might have added (as few seem to know) it was "invented in Louisville." Myer Berman, Louisville, was advertising spring suits from $7.50 to $30. Good suits for men could be purchased in the new styles for from $15 to $20. (Hauger still flaunted them at his fixed price of $9.99.)

30 YEARS AGO

Thirty years ago, this week, the Hall Seed Company, Louisville, was advertising the new "No. 40 John Deere Plow." Mr. Ford "recommended it" an ad said.

The "first blooms of spring" were appearing and the window box was beginning to take its place along side of what was appearing "in the garden."

The Easter "bunnies" had delighted the children. There had been the elusive "egg hunt." Easter was long since "gone" but its "memory" remained.

The Exhibition of the "District Skule" followed by a minstrel show at Valley School, April 1, had been "a success." Both attendance and money taken in had been greater than expected.

Overproduction in the factories, underproduction on the farms were being blamed for "the present depression." There were, of course, "other causes" but the farmers were asked by the county agent to "spruce up" and "do his part" to get the country out of "a hole." Then, sometimes, the "overproduction on farms" is an "objectionable factor." There had been "much speculation—too much, perhaps, and there had been an "overloading" of certain stocks. The city retailer had found himself overloaded with surplus stocks and that was the reason he was forced to sell at reduced prices. The country storekeeper, likewise, the county agent asserted, was similarly affected and he had to follow suit. The closing of foreign markets to our manufacturers, he said, had been a factor in the general setback. High tarriffs had played their part.

Other countries could set up high tarriffs against us in America. The rule could work "both ways." At present, so far as agriculture was concerned, the county agent said we were not producing much more than our own needs. Better prices for farm products would come from better selection, better handling, and better quality. There was much left for the farmer to learn but he was showing increased interest in both his methods and his desire for better marketing.

S. W. Anderson, associate county agent of Jefferson County, had started a weekly "Boys' and Girls' Column" in The Jeffersonian. It had just made its initial bow and suggested that "now that pleasant spring had come, it was time to sign up and plan for "summer work."

About 50 houses have been constructed in the Buechel Terrace Subdivision and avenues and streets are being built. The branch flowing through the southern area is being changed into a new channel. Many of the homes have been sold and families will move into them in the near future.

The wedding of Miss Pearl Combs and Mr. Melvin Lentz will take place at Newburg Christian Church Saturday evening, April 14. This is a splendid young couple and much interest among their friends is taken in the coming event.

Mr. and Mrs. Fielden Frederick and Mrs. Orville Stivers spent several days last week in Bowling Green visiting Dr. and Mrs. George V. Page.

Quite a large number of friends from this community and from Newburg attended the wedding on Monday evening of Bro. Wayne E. Spangler and Miss Ida M. Moore at the South Louisville Christian Church. The new auditorium was beautifully decorated in white lilies, potted plants and candelabra and the ceremony was performed by Bro. Hays, minister of the church. The bride was gowned in white satin with long veil of tulle and bridesmaids in colors of rose, blue, and green. A reception followed in the receiving room of the church where several hundred were present. Later the young couple left for a wedding trip and will return to Louisville after April 15.

Mr. and Mrs. Hugh Standiford were dinner guests of Mr. and Mrs. Robert Magidoff on Douglass Boulevard on Saturday evening.

Many relatives from Cincinnati and Bellevue will come here for the week end and attend the Combs-Lentz wedding on Saturday evening.

Be Ready With Your Dollar When Solicitors Call

Do you know where you live?

Are you embarrassed when somebody asks you for your street and house number?

Can you tell a stranger how to get to a certain spot in town without going into the yard, pointing like a windmill and giving oral directions for 5 minutes?

The Jeffersontown Area Community Council has decided to do something about this inconvenience. The group needs your help. It needs your cooperation through the purchase of house numbers. That is all Jeffersontown citizens are being asked to do. Volunteer workers do the rest.

The plan is simple. To defray the cost the local Boy Scouts, an affiliate of the Community Council, is selling house numbers at $1 per set. For the $1 you can have your correct number in cast aluminum.

You'll be adding to the value and attractiveness of your home, and you will be making a valuable civic contribution to your town and community.

The street marker shown here is an exact replica of those soon to be seen at intersections in our town.

The attractive sign is cast in heavy aluminum, with the name of the street on both sides. The posts are 2-inch galvanized pipe, to be sunk in concrete at the intersections.

Get your correct house number from a representative of the Boy Scouts. Ask your friends and neighbors to cooperate by installing these uniform numbers on their homes.

Call R. A. Neblett, Mrs. Marshall Krieger, W. T. Settles, or C. A. Hummel if the representative fails to find you at home. Ask for any further information you may desire regarding street markers or house numbers.

Any special donation to this worthy cause will be appreciated. Make checks payable to the Publicity Committee. You may mail or leave your check at the Bank of Jeffersontown. Any funds left over from this project will be set aside for future improvements to our community.

ONE WAY TO MAKE JOE STALIN LAUGH

Headline in the daily press says the President's removal of General MacArthur "Pleases Western Europe." We'd say it pleases Eastern Europe too. From our observance it appears that the President and the State Department are hewing to the same policy line and using the same tactics as did Roosevelt and his associates when they dealt with Stalin in and after World War II, the bitter fruits of which our country is reaping today.

There is no reputable, efficient business organization that will put a man in charge of a department of its enterprise, hold him responsible, and tie his hands. To expect this country to furnish the men and the money, almost entirely, while the U. N. talks and talks, indefinitely, and rules the roost, is too much for even a gullible public to take lying down.

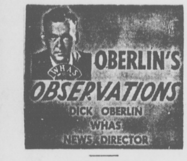
U. N. countries obviously responsible for this latest faux pas refuse to consider a blockade against Red China, but continue to cater to her, and trade with her to the detriment of this country, on whose strength they must depend to save the world from Communism.

In support of the oft expressed claim that the United States is the great melting pot of the world, we submit the names of the three candidates for mayor of New York City in the last election: Pecora, Impelleteri and Corsi.

Somebody is always saying we need a law for this or that. The fact is, as we observe it, what the country needs is fewer laws than what she has: and fewer government agencies, at least until she can find better public officials for administrators.

According to one local philosopher, "Nothing will cook one's goose faster, than a red hot temper."

They tell us: It takes about 250 pounds of coal to outfit a car with rubber tires and tubes.



OBERLIN'S OBSERVATIONS
DICK OBERLIN
WHAS
NEWS DIRECTOR

FLEEING TROUBLE

There was a little story from Pittsburgh on the news wires the other day about three teen-agers, the eldest only 16 years old, who ran away from home to live good, full lives before the end of civilization caught them.

We expect teen-age boys to feel the lure of the open road these early, fresh spring days, but for three girls to feel the lure so strongly that they just bodaciously light out. . . . Well, that's a little different.

Seems now that it isn't just the young man's fancy that lightly turns in spring!

The girls had something, though. They left a note saying they hated to leave home so abruptly, and without notice, but that they fear by the time they get out of school there'll be a war and they'll be dead. "And school lasts too long."

Can't you just see these three young ladies sitting around, maybe on what is called, I believe, a "slumber party," getting into a solemn, philosophical discussion, and deciding that the end of the world is nigh?

Just as their mothers and their grandmothers and great-great-grandmothers did before them?

More Real Dangers Today

Possibly the girls from Pittsburgh really have more to worry about, though, than the girls who years ago were teen-agers.

The threat of the atomic bomb—and the H-bomb—are real and present dangers in our lives.

There are several top-priority communities in Kentucky which, in event of atomic warfare would undoubtedly be on the Kremlin's list to drop an egg on sooner or later.

Life is so short—and school is so long!

But isn't the condition of the world, which pretty generally is regarded as a deplorable condition, actually a result of the shortcomings of our schools? Maybe school isn't long enough.

We teach our scientists in schools how to make nightmarishly powerful weapons of destruction. But so far we haven't even been able to teach people who live in the same community to live peacefully. We constantly have strife between labor and management, between Republicans and Democrats, between young and old.

Peace Among Oursevles

We still have some Southerners who are distrustful of Yankees, and Westerners who dislike and suspect all the rest of us. We have states which squabble over commerce between their states.

Those three Pittsburgh girls undoubtedly will find before they get home that they can have the full, good life better and a whole lot easier right where they live than by running away from the things which are basic to their lives—their homes and their schools.

You don't achieve anything by running away. Even if staying on and fighting it out on the home grounds sometimes does seem like an impossible battle to win.

Maybe we need another brillian instructor—like the one who lived a couple of thousand years ago—to simplify and forcefully teach us again to live together.

Sparks and Sundries

By Samuel H. Stuart

"Know the truth and the truth shall make you free" said Jesus Christ nearly 2,000 years ago and that is always the process whereby freedom is obtained or safeguarded—by understanding the basic truth concerning it. That is where America is most vulnerable—our people are often poorly informed as to the reasons for their faith, political or spiritual. They think they know what they believe but why they believe it is not so certain in their minds. As Clem D. Johnson, former vice-president of the U. S. Chamber of Commerce, said at the Centre College mid-year graduation exercises, "Our danger is not from any dramatic abandonment of the American way of life but from a leaking away of principle—a creeping Socialism that . . . almost imperceptibly engulfs our nodding citizenry."

As a people committed to a government best described as "liberty under law,' we should weigh our way of life against the system, say, of Communism. Each of us should ask himself, Which advantage of our plan over the Soviet scheme do I consider most important:

1. Its greater individual freedom?

2. The opportunity it offers the citizen to participate in his government?

3. The incentive to excel afforded by the profit system?

These are basic advantages of the American way and if we study each one carefully we cannot help but be impressed by the heritage we have. We will also come to better understand what we are standing for in a world which has been drifting farther and farther to the left for three decades.

The greater individual freedom of our system means not, in "four" but forty-'leven ways, from religious liberty to freedom from search and seizure without warrant. Participation in the government, assured to all, includes the right to vote, to seek office or to peacefully agitate reforms. The profit-system's incentive to excel makes every man the potential inventor of a better mousetrap with unlimited opportunity stretching out before him, if he has the stuff it takes. All these and other advantages of our wisely-planned form of government spell out the best life which any philosophy has, so far, developed. Let us preserve our way of life by finding out the truth as to why it is so good.

WHICH IS LIBERAL?
Is he a liberal
Who flouts with sneers
All of the wisdom
Won from the years,
Who thinks he outrivals
In his silly youth
Those who have striven
Long to find truth?

Or is he a liberal
Who thinks of the past
As a chest-full of treasure
Which life's sea has cast
At his feet for disposal—
Who does not in his haste
Discard its true jewels
As baubles of paste?

What Kentucky Editors AND OTHERS ARE SAYING

Daylight Time—Yes or No
(Kentucky Standard)

Spring is here and so is the perennial argument over daylight saving time.

Whatever the decision of the City Council as regards daylight time for Bardstown there is no escaping confusion. The farmers have already registered their protest against it. Should it be decided that Bardstown will remain on standard time then there will be confusion for those who have to do business or work in other cities.

Louisville and most of the county seat towns in this section will have daylight time. If we adopt "fast" time our watches and clocks will disagree with the railroad timetables, bus schedules, etc., and with the watches of farmers.

Most people who work inside all day relish the idea of relief from the heat and an extra hour of sunlight on the outside. They can tend their gardens or engage in other chores or recreation which must be done during the day.

The only real solution to the daylight saving time question would be for the entire state to adopt it. The present system of 6 o'clock one place and 7 o'clock another will always be confusing, and whatever time it is here will please some people and displease others. There's no avoiding it.

THE AMERICAN WAY

NO LICENSE TO STEAL
By Maurice R. Franks

(Editor's note: Maurice R. Franks is president of the National Labor-Management Foundation and editor of its official publication, "Partners.")

You can secure a license to go hunting, fishing, or to get married. Permits are available for almost everything, but, as yet, there is no permit to steal. Senator Kefauver and his crime-investigating committee are putting forth their best efforts to insure there never will be.

However, many members of organized labor seem to have the idea that their union cards are permits to steal, permits to lay down on the job, the right to short-change their employers by not giving an honest day's work for an honest day's pay. A union card never was intended for anything but the uplifting of mankind, of the worker, his employer, the public and the nation as a whole. It is symbolic of honest dealing. It is the worker's reminder of the long, hard battle fought to gain for him the just rewards of his labor.

Before the coming of unionism there were all too many instances of unfair treatment of workers by employers who were not willing to give an honest day's pay for an honest day's work. Labor, with justification, revolted against such inhuman and unjust treatment.

The gains made by organized labor for the benefit of the workers generally have been through honorable objectives. And certainly the abolition of child labor, sweat shops, and the attainment of an honest day's pay for an honest day's work, must be considered honorable objectives. In short, the union labor movement was built on a solid foundation. Its original promoters were of the type willing to fight for the attainment and the longevity of their program.

But, what has happened to this worth-while movement? Individuals have usurped leadership of it who seem to have neither knowledge nor respect for the preamble of unionism. Their attitude seems to be precisely that of the former unjust businessman, "You will accept our terms or go out of business." And sometimes these terms are such that to accept them is to go out of business. It is small wonder then that we have labor troubles today.

Good, honest workers are being encouraged by some leaders to perform contrary to the intent of unionism. They are being given the impression that as union men they no longer are required to render an honest day's work for an honest day's pay; that their union cards make them privileged characters of society; that they have the right to steal time, which, in the final analysis, is money. An end must be put to this unjust attitude. Those who possess union cards must learn that with greater advancement of the workers, also comes greater responsibility for the workers.

The combination of the American Capitalistic System and unionism has enabled American workers to surpass all other workers of the world. The System made him free to pursue the course of his industrial inclinations, and unionism helped him to obtain fair compensation. Thus unionism moved forward.

It is imperative that the union worker accept the fact that good unionism can be guaranteed only through good industrialism — through high production at the lowest possible cost. These are the Siamese twins of successful business and to separate them is to bring disaster upon both of them.

When any union man gets the idea that his union card gives him the right to be an unscrupulous worker, he should be reminded that his card not only calls for his giving an honest day's work for an honest day's pay, but a better day's work for a better day's pay. He also should be told in no uncertain language by the officers of his union that although his union card is a guarantee of just treatment from his employer, it is no license to steal.

KENTUCKY ON THE MARCH
by Ewing Galloway

KEEP MONEY IN BANK

If you carry more than $50 on your person and lose it, or get robbed, here is one guy who won't sympathize with you. Recently a businessman in Evansville, just over the river from us, told the police he had been held up late at night at his home garage and robbed of $16,000. My first reaction to that story was, why should anybody carry a large sum of money in his pocket when banks are open from 9 till 3.

And every now and then somebody learns that stuffing currency in mattresses or cold-air pipes is bad business. Houses burn or burglars come.

I once knew a man who worked in a bank but used his wallet as a depository. He would tote thousands of dollars in his pocket rather than risk the bank vault and the Federal Deposit Insurance Corporation.

I learned a good lesson about 40 years ago when I was a student at Columbia College in New York. It was election night, which is the biggest carnival night of all in the metropolis. I and a fellow student were in the big jam in Times Square, and when I got home my wallet and $35 were missing. Ever since that sad incident I have been carrying currency in the little watch pocket at the belt of my trousers.

Banks are the cheapest and best public utilities that serve the people. They serve most of their customers free. Of course they lend the money you leave on deposit and make their dividends that way, but you are out nothing.

Bank officials often serve as confidential advisers, especially in routine matters. There is hardly an errand they won't do if you ask them.

My first experience with a bank was at the time the Teddy Roosevelt money panic threw a whole armful of monkey wrenches into the nation's business. The Henderson banks had to limit withdrawals to $5 per person daily. The local clearing house issued scrip instead of currency. I was getting weekly salary checks from the Henderson Gleaner and monthly checks from the city, which I was serving as city prosecuting attorney. I had about $2,500 in the Henderson County Savings Bank already, and every time I got a check I would take it to the late G. W. Crutcher, the bank manager, and deposit all but enough for current expenses. Maybe I was too dumb to worry. Anyway, I didn't.

I pulled up stakes and left Henderson the next year, but left a small deposit with Crutcher. He never mentioned the panic incident but for ten years he acted as my business agent and never charged me a cent for the service. I was a piker money lender in those years, and Crutcher executed loans for me and released mortgages.

Don't take your bank for granted. It is a convenience you couldn't do without.

And free fer nuthin'.

Garden State Tomato Resistant To Blight

A variety of tomatoes called Garden State, tested for several years at the Agricultural Experiment Station at Lexington, has been found to have considerable resistance to blight, a disease which caused big losses in Kentucky the past year.

Grown alongside other varieties, sprayed and otherwise treated the same, Garden State tomatoes turned off big yields in 1950. Blight reduced yields of most kinds, even though they were carefully sprayed.

While Garden State shows resistance to blight, Dr. E. M. Emmert, who conducted the tests at the Experiment Station, advised a rigid spray program for it, the same as for other varieties. He starts spraying in a week or ten days after the plants are set, and repeats spraying at regular intervals throughout the season.

THE BIBLE SPEAKS

'We Are His People'

Lesson for April 15, 1951

Dr. Foreman

WHEN A Christian today in church repeats the ancient Psalm, "We are His people," if he knows what he is saying he is associating himself with Abraham, Isaac and Jacob. The God of the Bible is not a "great first cause" or a "principle" of any sort. First, last and always He is the God of the Covenant. Over and over again He is called the "God of Abraham, Isaac and Jacob."

The stories of these men are not mere campfire tales of legendary ancestors. They are the story of how these men were related to God in a solemn covenant; they were "God's people" in a special way. In the New Testament we find the strange yet stirring declaration that God was "not ashamed to be their God."

• • •

The Living God

THE FULL meaning of what the Bible has to tell us about God can be discovered best by coming toward an understanding of what the covenant idea means. What is meant by the Covenant God, one who makes covenants with men?

First of all, it means that God is living. He is not a mere observer of events with which He has nothing to do. If we could put it into modern American language, God does not sit in the bleachers; He plays the game. He does not, as it were, read the newspapers to see how the war against evil goes on; He is out on the field directing the battles.

God is not something to be talked about, a problem, an X; He is not a creation of men's minds, God is not a name for an idea. He is more alive than any one who thinks about Him, He is more real than any who ever doubted Him.

• • •

Only Persons Make Covenants

THE GREAT difference between things and people is that people have wills of their own. And God is a person. You will not find in the Bible any statement directly saying that God is personal, or a person; but every time a Covenant between God and man is mentioned, the idea of personality is there.

No one who ever knew God would think of calling Him "It" even with capital letters. If we say "He" about God it is not because we think He is masculine; it would be quite as true to call Him Mother-God as Father-God.

As Dr. Reynolds, Presbyterian missionary to Korea, has pointed out, all the best qualities we associate with motherhood are in the Bible attributed to God. So if we call God "He" what we are emphasizing is that He is personal, that He has intelligence and will of His own, no vague It or That or "All."

Then the Covenant God is one who takes the initiative. The Bible tells of a God who does not wait on a snow clad peak of eternity till lost mankind somehow breaks a trail up the vast ranges to His lofty throne. It tells of a God who walks in the valley of the shadows, seeking men. All religions have gods, some of them very "high and lifted up"; but only the Bible reveals the true God, whose mercy does not have to be bought or coaxed, but a God who approaches man in mercy, a God who is all-giving Love.

• • •

God Makes His Own Terms

AT THE same time, God remains God. He is not on a level with man. He takes the initiative, but also He makes His own terms. We cannot dictate to Him. We cannot draw up our own contracts, so to speak. God made promises to Abraham, Isaac and Jacob, and we are "heirs of the promises."

But these promises are not promiscuous. To put it quite simply: God is not on friendly terms with every one. He is a friend to all who will be His friends. But with those who turn their backs, who go their own ways, who care little or nothing for His great purposes, who do not seek His will, God makes no covenants.

God's will is the welfare of mankind. God's will is the destruction of evil, the creation and triumph of good. God is light and in Him is no darkness at all. If we love darkness rather than light, we have no right to be called His people. We cannot call ourselves His people because we are Americans, or because we belong to some church; we can call ourselves His people only if our hearts are in tune with His.

The April meeting of the Stowers Lane Homemakers Club was held on April 5 at the home of Mrs. A. L. Lukemeier, 4115 Hillview Avenue.

The recaning project was completed and the finished chair was shown at this meeting. It was decided that the club would display its work in the window of the local hardware store the week of April 29. The recaned chair and a refinished magazine rack are to be shown.

A work day was selected in the latter part of April for a special project of aluminum etching. The work day will be Monday, April 25 and the meeting place will be the Stowers Lane Methodist Church.

Orders were taken for the copper which is the next project of the club. The dogwood and magnolia tress, ordered last year, were distributed to the members. —Mrs. John H. Vincent, Publicity Chairman

MELBOURNE HEIGHTS

The Melbourne Heights Homemakers Club met at the home of Mrs. Ed Ruby on April 4 with 16 members present. Mrs. Webb visited with us shortly and showed us some copper articles that we can make. She had Miss M. Schoenbachler, "the teen-age home demonstration agent for the day," with her. We then had our glove lesson, given by Mrs. Louis Schuster.

After lunch we had our regular business meeting. A cake sale is planned for May. After the business meeting, Mrs. R. Bruckert had several games for the group. Then we had our final lesson in chair caning.

The May meeting is to be held on the second at the home of Mrs. J. W. Schumann.—Mrs. Louis Schuster, Jr., Publicity Chairman

LYNDON

The Lyndon Homemakers Club met at the home of Mrs. J. H. Reed Tuesday, April 10. Mrs. Louis Goetz was co-hostess. Twenty members and two visitors were present. Mrs. Hiram Summers opened the meeting by reading the Homemakers Creed. Lessons on two projects were given. Mrs. W. A. Perry, Jr., and Mrs. Walter Palmer gave the final lesson on chair caning and Mrs. Clyde Lawton gave the glove-making lesson.

After a delicious luncheon the president, Mrs. E. G. Boone, conducted the business meeting. Mrs. Albert Ross and Mrs. Roscoe Bibb, leaders for the copper project, showed what they learned in their first lesson, also took orders for the copper. Mrs. Gilbert Kerby gave out magnolia and dogwood trees and told how to plant and care for them.

The club voted to have a display in the Puritan Cleaners at Lyndon during Home Demonstration Week, April 30 to May 5. The next meeting will be held at the home of Mrs. Walter Palmer, Benjamin Lane. — Mrs. Sherman Rostetter, Publicity Chairman

JEST AMONG US . . .

By Jack Wild
UNIVERSITY OF KENTUCKY

Charles Laughton the eminent British actor, came to Lexington one November eve last year to appear on the Central Kentucky Community Concert and Lecture Series. A few days ago the publication which Time Magazine delights in referring to as "the good grey New York Times" carried an account of Mr. Laughton's tour of the provinces.

Now, the New York Times is one of the world's great newspapers, certainly the nearest there is to a national newspaper in this land, and its slogan, "All the news that's fit to print," is more than a boast. But that Laughton thing!

"In Lexington, Ky.," the article declared in all soberness, "they first booked him (Laughton) into an 800-seat house and wound up in a revival-meeting tent that seats 3,000."

The truth: Lexington does not have an "800-seat house." Neither does it have a "revival-meeting tent that seats 3,000." Mr. Laughton was presented in the University of Kentucky's majestic new Memorial Coliseum that seats 12,451, and some 9,000 persons were on hand for the performance.

The suave English entertainer is quoted by the Times as remarking, of his excursion into the hill-and-holler country, that "I don't really know who my audience is. I do know that it is a vast and culture-hungry audience untouched by radio, television or—the movies." He failed to add that when he peeked out and saw the vast and culture - hungry congregation awaiting his appearance in that revival-meeting tent down in Kentucky, an illness came upon him in his dressing room. Once his knees quieted down, Mr. Laughton put on a real good show for the folks, however, and seemed to enjoy it.

Charles Laughton is coming back to Lexington again next year for another appearance. What he says about his second visit should make interesting reading, but I'll be more interested in what two other city fellers on the lecture series think of the Coliseum. Their names are Hanson Baldwin and William Laurence, and they are members of the staff of the New York Times.

Many expressions of gratitude for a most delightful evening of wholesome entertainment and fun were heard. The one-act play "Mrs. Carr's Summer Boarding House" was especially funny. It made the hearts of proud parents glad to see their own children display their talents and ability. Thanks were expressed to Mrs. Kersey, the director, and it was requested that more such programs be presented in the future.

On Tuesday night, April 17, at 8 p.m. Valley High will have their third annual Musical Concert of the band and orchestra, and senior and junior glee clubs at Valley Auditorium. This musical program will be the most enteresting of the year. Admission tickets are on sale.

Mrs. Chester Swearingen and Miss Henrietta McCalister were guests of Mrs. Robert Reardon, Tuesday.

At the Medora Elementary Grade School in Miss Corine Beeler's second-grade room the children are studying a very interesting subject, "Plant Life." Each child in the second-grade room brought a flower pot, filled it with rich soil, and planted flower seed in it. Each day they sprinkle the soil in the pot. They are watching these pots with much anticipation to see the plants come up. When Mother's Day comes each child will take his flower home to his mother for a Mother's Day present. For comparison some other pots filled with poor soil containing seed were placed where they would not receive light and water. This will illustrate that to have good results plants must have sunshine, water, and good soil.

Miss Beeler's second grade is keeping a record of the weather. They have drawn a picture to represent the weather for each school day this year. They also have a record for the past four years that the second grades have made. It is very interesting to look back and see what kind of weather we had on a certain day for the last four years.

Mrs. Downs' sixth grade has enjoyed using the science kit from the National Dairy Council this week and have learned many things about foods. Each child took part in one or more experiments.

The Medora 4-H Club had a community exhibit of food, clothing, and woodwork articles. Mr. E. N. Royster judged the woodwork and Miss Alice Word judged the food and clothing articles. The following boys and girls received blue ribbons: Foods — Mildred Lyons, Judy Krages, Dora Sue Plummer, Evelyn Pack, Thelma Embry, Mary Jane Kelley, Nancy Hendricks, Lois Streble, Wanda Mattingly, Linda Brent, and Alice Marcum. Clothing—Leona Hatfield, Ruby Hurt, Mildred Lyons, Evelyn Pack, Charlotte Haag, Mary Jane Kelley, Nancy Hendricks, and Alice Marcum. Woodwork — Kenneth Ragsdale, Liston Sutton, James Jordon, Charles Johnson, Terry Lee Rogers, Robert Henderson, Billy Cadreau, and Roy Davis. After the judging a short meeting was held with the club members.

On behalf of the proposal for additional taxes to finance a school building program, County School Board members have made talks before P.-T.A.'s, civic and other groups, explaining why the tax is needed. In the Valley district elementary schools are proposed to replace Medora, Valley Graded, Kosmosdale, Kerrick, and Greenwood. An election is to be called and the voters will decide on the measure.

The High School Musical Festival was held Saturday, April 7 at Gardencourt in Louisville. About 700 students from 28 junior and senior high schools took part in the regional competition. Valley High was well represented and a number were named as eligible for the state festival. They will compete in state finals to be held at Bowling Green and Lexington. The Bowling Green festival for both vocal and instrumental sections will be held April 26 through 28. The vocal section at Lexington will be held April 27 and 28 and the instrumental section May 11 and 12. The schools will choose the state festival where their students will participate.

State Program To Help Foreign Farmers

Dean Thomas P. Cooper has announced that the College of Agriculture and Home Economics of the University of Kentucky will co-operate in a "foreign young farmers program," in which young men from other countries will work during the summer on Kentucky farms.

Between 1,000 and 1,200 young farmers 20 to 30 years old want to work on farms in the United States, under the sponsorship of the Economic Co-operation Administration. After seven to eight months here, they will return to their native lands to conduct demonstrations in the improved methods learned in this country. The number to come to Kentucky has not been determined.

Farmers employing the young men will pay them wages and furnish them board and lodging. Most of them will come from farms and will have had college training or high school education.

Farmers interested in these young farmers should notify a county agent or write to the College of Agriculture and Home Economics, Lexington.

Mr. & Mrs.
Home Builder!
Watch The FRAME-WORK!
It Is Very Important!

The construction of the frame-work of the house tells the story of its ultimate STRENGTH. At this stage of the construction, you can see the skeleton that soon will be covered. But the permanence of the finished home will ALWAYS be dependent on the use of DRY, WELL-SEASONED lumber in the frame-work, and it must be properly placed for maximum strength.

We invite you, Mr. and Mrs. Home Builder, to visit our yards and select the lumber that is to go into your home. Select it just as carefully as you select your bathroom fixtures, and your electrical fixtures. Give your contractor good dry lumber from our yards, and he will build you a good home.

Commercial Feed Sales Double In Ten Years

The tonnage of commercial mixed feeds sold in Kentucky in 1950 was 584,000 tons. According to the Department of Feed and Fertilizer, Kentucky Agricultural Experiment Station, this tonnage was not as great as in the peak year, 1945, when 650,000 tons were sold. The present figure is, however, double the tonnage sold in 1940.

Of the total for 1950, 35 per cent was poultry feed. Twenty-six per cent was dairy feed and another one-fourth was made up of straight products, such as alfalfa meal, wheat and wheat by-products, corn and corn by-products, distillery by-products, and other straight products sold direct to farmers for feeding purposes. Eight per cent was hog feed. These classes of feed account for 94 per cent of all of the feed sold. The remaining six per cent was made up of miscellaneous feeds, such as horse and mule feed, sheep feed, mineral mixtures, dog feed, etc.

The tonnage of most types of feed has increased as had the total tonnage over the past few years. The tonnage for some feeds, however, has increased more than at the average rate. Ten years ago, less than 3,000 tons of turkey feed was sold; whereas now, four to five times that amount is sold.

Mother of Two Praises Hadacol

HADACOL Supplies Deficient Systems With Vitamins B_1, B_2, Niacin and Iron

Mrs. Elmer Hisel, 3225 2nd Ave., Council Bluffs, Iowa, is a good mother, and like all good mothers she keeps a careful watch for the welfare of her two young children. And when little four-year-old Lucille Hisel wasn't feeling as her mother knew she should she decided to do something about it. Mrs. Hisel gave Lucille HADACOL because she had heard how much it was helping children who had poor appetites and stomach distress caused by deficiencies of Vitamins B_1, B_2, Iron and Niacin. It helped her so much that now Mrs. Hisel gives HADACOL to both of her children.

Here is what Mrs. Hisel says:

"My daughter has taken two bottles of HADACOL and she has been eating more than before and also sleeps better. I think HADACOL is the best thing for children who do not have an appetite. My daughter is four years old. Before taking HADACOL my daughter complained of her stomach hurting her, and I got her a bottle of HADACOL and she says her stomach doesn't bother her any more. I think HADACOL is wonderful. I am also giving HADACOL to my three-year-old daughter."

HADACOL Is So Effective

An important thing about HADACOL is that you get Vitamins B_1, B_2, Niacin and Iron in liquid form, which means that they are quickly absorbed and dispatched to the blood stream, ready to go right to work. HADACOL helps build up the hemoglobin content of the blood (when Iron is needed) to carry these precious Vitamins and Minerals to every part of your body.

BE MARKET WISE

By Miriam Kelley
Field Agent in Marketing and Consumer Information College of Agriculture and Home Economics University of Kentucky U.S.D.A. Co-operating.

It's not all sauce — for along with plentiful supplies of canned applesauce, there are also canned apples, as well as good and low priced fresh apples. So take your choice—but have that "apple a day" in some form while supplies and prices are both attractive.

Take applesauce—whether you buy it already made in the can or make your own from fresh apples, applesauce doesn't always have to be "just applesauce." Don't throw away all the orange or lemon peels you have. Add bits of grated orange or lemon peel to those next servings of applesauce you dish up for a quick-but-good dessert. Warm and spicy applesauce can be just the so-right topping for the just-before-dinner-baked package cake. And have you tried applesauce as a topper for gingerbread?

If you like cheese —and who doesn't — top applesauce with grated cheese. Or for the main part of the meal, luncheon perhaps when a neighbor drops in, serve crisp toast spread generously with warm applesauce and topped with a sausage cake, well done.

Fresh apples—buy a bushel— if you've never enjoyed the pleasure of having at one time all the apples you can use. Varieties coming out of storage now are of excellent quality, the prices low. McIntosh and Romes are two all-purpose varieties you can ask for and get. There are also small-sized Western-grown winesaps—available by the pound or by the box that weighs just a few pounds less than a bushel.

Store apples cool—it's especially important at this time of year. Since they have been in storage since fall picking time, they will keep less long now—all the more reason for you taking advantage of the present supply.

At the market with apples — handle with care, just as you would if they were already in your own kitchen. Mishandling makes bruises which increase the cost to you and to those who follow you at the counter. Grocers must add to the cost what they lose from counter damage.

Like apple cake? Then you may want to try this recipe from the Bureau of Home Economics and Human Nutrition. Dutch Apple Cake—to make about nine servings: 1½ cups sifted flour, 1/3 cup sugar, 2 teaspoons baking powder, ¾ teaspoon salt, 1/3 cup shortening, 1 beaten egg, ½ cup milk, 3 medium-sized apples, ½ teaspoon cinnamon, 2 tablespoons butter, 2 tablespoons mild sirup. Sift flour, together with 3 tablespoons of the sugar, the baking powder, and salt. Cut in the 1/3 cup of fat with pastry blender. Combine egg and milk; add all at once to dry ingredients. Mix just until blended, and mixture makes soft dough. Spread the dough in a shallow greased pan (8x8 inches). Pare, core, and slice apples; place on dough in rows of overlapping slices. Mix remaining sugar and cinnamon; sprinkle over the apples. Dot with butter. Bake in moderately hot oven (375 degrees F.) 40-45 minutes. Remove from oven and pour sirup over apple topping.

THE GARDEN

TIMELY TOPICS

BEETS AND CARROTS — These two vegetables can be discussed together because their needs are in so many ways identical. Being root crops, both need low nitrogen, else they grow too much to top and make small roots. On the other hand, potash should be high, as this is the plant food that directly affects root growth, and makes plump carrots and beets. Well-rotted manure (the nitrogen gone) fills both bills, as the potash is unaffected by the manure rotting. Manure that is not well rotted should not be used on these crops, for the additional reason that unrotted bedding may cause forked beets and carrots, or excessive and undesirable side roots.

If commercial fertilizer is to be the plant food, 4-12-8 is a good analysis. Fertilizer 3-9-6 is good, too, as it is in the same ratio, but "weaker."

The varieties are: beets, Early Egyptian; carrots, Chantenay and Imperator. One ounce of carrot seed sows 150 feet; an ounce of beets, 75 feet.

Seed-sowing time is now. In a hand-worked garden the rows may be as close as 15 inches, but in a horse-worked garden, two feet. An extremely shallow furrow is made, one-half inch, the carrot seed dropped about four to the inch; beet seed, two to the inch. An excellent way to cover is to sow sand down the row, about one-half inch. Carrots should be thinned early to one inch, and beets, the same, but two inches assures quicker growth and better roots.

SWISS CHARD — The basic requirements of this "beet top green" are the same as for beets, but with nitrogen (the leaf-growth element) side dressing added, such as poultry manure, one bushel to 300 feet, or nitrate, one pound to 75 feet. This should be given when the first true leaf is about half-grown. In fact, several side dressings may follow, about two weeks apart, as swiss chard grows all summer.

A popular variety is Lucullus, and there is the red kind, rhubarb. An ounce should sow over 150 feet, as the spacing need be only four inches, to allow for thinning to ten inches. The plants grow quite large. Harvesting is done by breaking off the outer leaves, and new leaves continually grow. A row of 35 feet may be got with one packet of seed, to make up to ten bushels of greens in a season that lasts until severe frost.

Helping the Nation get things done for 75 years

This year is the telephone's seventy-fifth and busiest birthday.

What began as a line between two rooms in a Boston attic in 1876 has developed, in one lifetime, into a Long Distance network that covers the Nation — and extends to most of the world's telephones. This great system has grown in answer to the needs of a people. And it's a good thing it has. In these threatening times, the Long Distance lines that bind this country together are more vital than ever. For today they are helping to speed production and guard the Nation's security — jobs that call for nothing less than the best telephone service in the world.— *Southern Bell Telephone and Telegraph Company.*

To help speed your Long Distance call, please give the operator the out-of-town telephone number. *Telephone lines are busy with national defense.*

Newburg News

By Mrs. J. H. Shively

Bro. Porter filled his appointment at Newburg Sunday. There were a great many absentees on account of sickness. Several visitors were present. Bro. Ricketson was back on duty and directed his choir in several beautiful selections.

We were so glad to see Mr. Walter Newman, Sr., back to church after a severe attack of flu. He took his place as elder at the communion service.

We missed Mr. and Mrs. Earl V. Ollis and little Brenda Kay, but were glad to see the young folks. They are missed in the choir when absent.

Sympathy is extended to the brothers of Mr. John Rush.

A big surprise was sprung on the Newburg congregation Sunday when Bro. Porter announced from the pulpit the marriage of Pvt. Melvin Lentz and Miss Pearl Combs, Saturday night at the Newburg Christian Church at 8 o'clock.

Mrs. J. E. Stanford and Mrs. R. J. Cook are both on the sick list. Mrs. Stanford had a heart attack. Dr. Bates was called. Mrs. Cook is convalescing after a severe attack of of neuritis. Dr. Moore, from Fern Creek, attended her and she was soon relieved. She is very grateful to all who so kindly remembered her since she has been sick, with cards, also to Mrs. L. P. Jones for her delicious custard, Mrs. O. J. Stivers for her gorgeous American Beauty roses, and especially appreciative of a beautifully decorated peach custard meringue pie brought by the little girls next door, Marylin and Terri Lauer, and baked by Mrs. Andrew Lauer. She also sent a beautiful get-well card.

Mr. R. J. Cook and Mrs. Shiveley called to see Mrs. Edward Hindle, Sunday afternoon, who has not been so well, and presented her with a pretty house dress made by Mrs. Phil Frey.

Mr. and Mrs. Calvin Hart and sons attended the carnival and fish fry at Fern Creek School Friday night and pronounced it a great success.

We are sorry Mrs. LeRoy Stivers still remains ill and absent from church service.

Mrs. L. P. Jones and Mrs. Jimmy Shipp spent Friday in Louisville.

Donald Bradley has been given an honorable discharge from the service on account of physical disability.

The following have visited Mrs. Cook since she has been sick: Mrs. Roy Hart, Mrs. J. E. Stanford, Mrs. C. R. Hart, Mrs. L. P. Jones, Mrs. Calvin Hart, Bro. Porter and Mrs. Porter, Mr. and Mrs. V. P. Thompson, Mrs. Julia Jean Sparks, Linda and Barbara Hart, Roy Hart, and Calvin Hart.

Mr. Cook, Mrs. Calvin Hart, and Mrs. J. H. Shively attended the Moore-Spangler wedding April 2 at South Louisville Christian Church. To be very brief. we will say it was a beautiful bridal party and a beautiful ceremony in a beautiful church.

Mr. and Mrs. Willard Lilly and Mr. and Mrs. Spitz Woerner and family were Sunday guests of Mr. and Mrs. Calvin Hart and sons.

Mr. Joe Haering is not so well.

On account of sickness and other hindrances the meeting of the Home Missionary Circle has been postponed to the third Tuesday, but at the same place, the home of Mr. and Mrs. V. P. Thompson and Mr. and Mrs. Charles Palmore and son. Make your plans to go. It will be an all-day meeting. Each lady is to bring a covered dish and a white elephant.

By Mrs. Joe Baete

The church was filled Sunday morning. One hundred and three attended Sunday school and several more the preaching services. Bro. Schreiner delivered a very touching sermon. One came forward for baptism and five for rededication. One came up for baptism Sunday a week so the two were baptized at Camp Taylor Church Sunday evening at 3 o'clock.

The two young men from the Bible College who took charge of the services Sunday night were Bro. John Pound and Bro. Robert Garrett. They made very good talks.

Miss Annie May Conn and Mr. Hazel Clarence Welch were very quietly married Sunday afternoon at 1:30 in the parlor of her parents, Mr. and Mrs. Chester Conn, by Bro. Edward Schreiner. They went immediately to housekeeping at an apartment in Louisville.

Mr. and Mrs. J. R. Charles, Mrs. Nannie Young, Mrs. Sada Young, Mr. and Mrs. Rush Downing and children called Sunday evening on the William Downings and baby.

Ye writer, Mrs. Joe Baete, entertained at her home last Thursday with a covered-bowl dinner Forty-four women and children all enjoyed the wonderful meal In the afternoon Mrs. Jane Waters, our Stanley demonstrator, was present and took charge of the party. I want to thank each one who helped make the party a success.

Those who called in the past week to see Mrs. William Downing and baby were Mr. and Mrs. Roy Gaddie, Jeffersontown, Mr. and Mrs. Clarence Roby and Junior, Mr. and Mrs. Marvin Roby, Mr. and Mrs. W. L. Nesmith, Mr. and Mrs. Roy Roby, Jr., and Diana, Mrs. Edna Roby, from Corydon, Ind., Mesdames Mable Hornbuckle, Ben Koehler and children, D. W. Headden, Joyce Blair, Hallie Curtsinger, Horace Reaves, Mildred Hornbuckle, Ruth Hornbuckle, Margaret Wright, Aline Burroughs, Joe Baete and children, Miss Marie Conn, and Mr. Will Reader. Mrs. Downing's mother, Mrs. Mayme Hermanson, is going to be with them and care for them for some time.

Mr. and Mrs. Paul R. Eldridge and children called on his uncle, Mr. Joe Baete, and family Friday night to watch wrestling.

Mrs. Lorraine Schreiner attended a sewing class at the home of Mrs. Everett Farmer last Saturday.

Mr. Dossie Wright was sick over the week end.

Mr. Allen Brentlinger and Mr. Charley Campbell are wiring the home of Mr. George Conn for electricity. The doctors think that the light treatment might be of great value toward restoring the use of his limbs. Mr. Conn fell from a pear tree last September fracturing his spine in three places. He has never had any use of himself from the waist down since then. Through prayers and contributions of friends the work is under way. May the Lord bless all those who can help in any way.

IN MEMORIAM

Tribute to Mr. Virgil Simpson, who passed away April 11, 1949:

When twilight hours draw near
And sunset flames the sky,
We think of you Dear Daddy
And the happy days gone by.
Thoughts of you come drifting back
Within our dreams to stay,
But we know that you are resting
When the twilight ends the day.

—Wife, Daughter, and Grandsons. 48-1t
